

K-Love, my local FM radio station, has served me as a resident of my local community very well. They provide an excellent service to me and to others by providing family-friendly music programming. If K-Love were replaced by an LPFM broadcaster, we may not have the family-friendly programming that now provides us with full-time positive and encouraging music and news. K-Love provides a great service for our public interest by providing us with the this positive and encouraging programming. I simply love my K-Love and would be very upset if it were replaced by some other type of radio station. They do a wonderful job!!!!!!
